## ABSTRACT

(22) Filed: Nov. 4, 2014

## Publication Classification

(51) Int. Cl.

**Int. Cl.**  
**A41D 31/02** (2006.01)  
**A41D 1/08** (2006.01)

A double layer garment including a first inner layer, worn next to the skin, that is at least in part made of a natural fiber (e.g., cotton) and a second outer layer that is made of a synthetic fiber (e.g., spandex). The natural fiber inner layer and the synthetic fiber outer layer are seamlessly knitted together without seams to form the two layers.
